Film to Lay Bare Rehearsals for Weird Phenomena Tartar Variety Show to Begin

Ever see a plant with a digestive system? Or a bird that flies backwards? Or a chameleon with a built-in lasso? You can see these and other natural phenomena in the full color film "Prior Claim," to be shown at the First Baptist Church, Carson St. and Manuel Ave., Nov. 13 at 7:30 p.m.

The film will be sponsored by the Men's Brotherhood of the church, according to Charles French, president. Admission will be free, and all are invited. The gospel-science saga that was just released from the Moody Institute of Science in Los Angeles.

contraption with the teeth is a plant, and the unfortunate creature on whom the jaws have shut is a grasshopper. He is a trifle larger than the Venus flytrap, carnivorous plant shown here, but his tail end probably already is soaking in the digestive juices at the bottom. This is a sequence from the newest Moody Institute of Science film, "Prior Claim," sixth in the "Sermons from Science" series, to be shown at the First Baptist Church Nov.

Rehearsals will begin tomorrow for "Blackouts on Review," annual student show at Torrance High School, which is scheduled to be staged in the school auditorium Dec. 3 and 4. Student performance of the show will be held on Dec. 3 and the evening performance is slated for Dec. 4.

Master of ceremonies for "Blackouts on Review" will be Bob Hopkins, senior class president, who was named "best actor of the year" as the school last year. Hopkins is also a member of the Thespians, Tartar Knights Varsity Club, H. Y., and the varsity football team.

Singing stars of the show include Barbara Northcutt, a senior, who plans to audition for Grand Opera after high school; and Sandy Gish, a junior, who had a leading role in "The Red Mill," the school opera last year, according to Peggy Wood, publicity manager.
